THE TREE OF LIFE

The Tree of Life, a dedicated monument for the enclave symbolises energy, calm, and vigour, that is surrounded by four landscaped gardens (Sculpture Court, Flower Garden, Zen Garden, Swing Park) with seating and play areas, ensuring people over all generations can unwind and experience a sense of calm.

STEP INTO QUIET LUXURY

Here, space is deliberate, movement is unhurried,
and stillness comes from things being precisely
where they belong.

This is a place shaped to last in form,
in planning, and in presence.

FUNCTIONAL PATHWAYS

Start and end your day with unhurried walks along shaded pathways and thoughtfully placed seating nooks, where simple daily strolls are transformed into a restorative ritual for body and mind.

A 40-ft grand boulevard ensures effortless arrivals, while 30-ft tranquil internal roads and thoughtfully zoned planning create a quieter, safer, and more undisturbed living environment.

GRACE IN EVERY CORNER

Lush landscaped avenues, thoughtfully layered design elements, and tranquil green pockets come together to shape an enclave of enduring beauty and quiet grace in every corner.

Traffic buffering, inward-focused zoning, and low residential density keep daily life shielded from outside noise and rush.

DESIGNED UNDER NATURE, NOT OVER IT

Leafy walkways provide cooler, quieter, and comfortably shaded routes, and a seamless connection to nature ensures that every corner of each villa is connected to greenery.

THOUGHTFULLY DESIGNED LANDSCAPES

Landscaped shrubbery near the villas creates green pockets that soften the surroundings and bring nature to your doorstep, while tall tropical trees line the avenues, framing the streetscape with distinction.

WORKING AMIDST NATURE

An open-air workstation set amidst greenery offers a refreshing, productivity-boosting space where work flows naturally in the calm of nature.

WATERSCAPES BRING BALANCE

At Zenora, a serene lily pond paired with a reflexology pathway, create a soothing, sensory retreat that nurtures relaxation and holistic well-being.

SPACES THAT SLOW LIFE DOWN

Spaces like Zenora's Zen Garden are shaped to slowdown, fostering stillness, comfort and balance.

A high green ratio, spacious internal lanes, and low-density planning foster an atmosphere that feels open, quiet, and unhurried.

BUILT TO OUTLAST

Zenora is defined by proportion, choice of materials, and architectural clarity, resulting in a composition that transcends fleeting trends and endures gracefully over time.

CRAFTED THROUGH TEXTURE AND TONE

Zenora's tropical luxury palette combines warm timber soffits, light-toned plaster and concrete textures, black metal accents, and premium glass glazing, creating a composition that is timeless, refined, and quietly opulent.

SEAMLESS BY DESIGN

Hidden operational systems ensure seamless functionality of utilities.

Generous setbacks, mindful window orientation, and layered boundary planning preserve personal space without feeling closed in. Intuitive layouts, seamless circulation, and restrained, purposeful planning come together to create homes that feel effortlessly refined. Tiered access control, planned surveillance coverage, and clear movement hierarchies create a secure yet unobtrusive living environment.

EFFORTLESS EVERYDAY LIVING

At Zenora, every plan is crafted to reduce friction. Spaces connect intuitively, and daily routines flow with ease. Comfort here is built into the layout through thoughtful zoning, daylight balance, and calm proportions.

Villas include a room that works as a study, guest space, or elder-care suite. There is also clear separation between living and work zones. Cross-ventilation and thoughtful window placement keep interiors bright, airy, and quietly composed.

EASEFUL ACCESS & INCLUSIVE DESIGN

Every villa includes a private lift to ensure seamless access across all floors. Layouts are designed for multi-generational living, with easy circulation, quiet privacy, and everyday comfort built in.

Elder-friendly planning, thoughtful bedroom placement, and reduced dependence on stairs make the home future-ready and effortless.

ROOM TO UNWIND AND EXPAND

Expansive layouts provide room to breathe
and savour every moment.

COMMUNITY COMES TOGETHER

The 20,000 sq. ft. of Clubhouse space comes with a variety of spaces for work, wellness, community and quality time.

IGBC CERTIFICATION

With **IGBC Gold certification**, ensuring detailed planning and inclusions, Zenora demonstrates its commitment to sustainability, ensuring energy-efficient design for sunlight and cross ventilation. The enclave adopts eco-conscious planning through water and energy efficiency, increased green cover, and the use of sustainable materials. These measures, along with thoughtful ventilation, lighting, and shading elements across the villas and the enclave, help minimise environmental impact while enhancing comfort, wellbeing, and long-term value for every resident who calls Zenora home. IGBC Certification also ensures eradication of heat islands in the project by incorporating natural cooling elements in villas and shared spaces.

Completion of Second floor slab	10%
Completion of Brick Work	10%
Completion of Plastering work	10%
Completion of Painting	10%
Handover	5%
Total	100%

THE TEAMS BEHIND ZENORA

Architecture & Design

Cuboid Architects

- Healthcare, residential and complex building design
- Award-winning residential structures
- BIM-led design and execution

Structural Engineering

Mithran Structural Consultants

- Large-span steel and civil structures
- Cultural, institutional and industrial projects
- Proven expertise in complex structural systems

Project Management

Matrix PMC Consultants

- Cost, time and quality stewardship
- ISO-certified project management systems
- Trusted for disciplined delivery

Landscape Architecture

Dhruva Landscaping

- Integrated hardscape and softscape design
- Award-recognised landscape projects
- Ecological and site-responsive planning

MEP & Building Systems

Prism MEP Consultants

- HVAC, electrical, plumbing and fire systems
- Energy-efficient, future-ready infrastructure
- Experience across large and complex developments
